PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of experience designing and developing scalable web applications using React.js, Node.js, Express.js, TypeScript, and MySQL. Proficient in building RESTful APIs, real-time applications with Socket.io, AI-integrated solutions using Google Gemini and OpenAI, secure authentication (JWT/RBAC), and cloud-deployed applications on AWS. Passionate about building high-performance, user-centric enterprise and SaaS applications.

EDUCATION QUALIFICATION

GURU NANAK DEV UNIVERSITY

Master of Computer Applications (MCA)

Aug 2022 – June 2025

Amritsar

PANJAB UNIVERSITY

Bachelor of Computer Applications (BCA)

Aug. 2019 – June 2022

Chandigarh

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React.js, Vite, HTML5, CSS3, Tailwind CSS, Bootstrap, Zustand, Redux Persist, Framer Motion
- **Backend:** Node.js, Express.js, RESTful APIs, Socket.io, JWT Authentication, Multer, Bcrypt, Nodemailer, Node-cron
- **Database:** MySQL, MongoDB
- **Cloud & AI:** Google Gemini API, OpenAI API, Firebase Cloud Messaging (FCM), AWS EC2
- **Tools & Platforms:** Git, GitHub, Postman, Docker, PM2
- **Concepts:** Authentication, Role-Based Access Control (RBAC), API Integration, Real-time Applications, WebSockets, Progressive Web Apps (PWA), Responsive Web Design, MVC Architecture

PROFESSIONAL EXPERIENCE

Visiontrek Communication Pvt. Ltd.

Full Stack Developer

Apr 2025 – Present

Mohali, Punjab

- Developed scalable full-stack web applications using React.js, Node.js, Express.js, TypeScript, and MySQL.
- Built enterprise platforms including AI-powered healthcare, HRMS, service marketplace, and VAS subscription systems with REST APIs, JWT authentication, RBAC, and Socket.io.
- Integrated Google Gemini, OpenAI, Firebase FCM, Google Play Billing, and third-party APIs while deploying applications on AWS EC2 using PM2.

Solitaire Infosystems Pvt. Ltd.

Full Stack Developer Intern

Oct 2024 – Mar 2025

Mohali, Punjab

- Developed responsive React.js interfaces and collaborated on backend development using Node.js, Express.js, and MySQL.
- Integrated REST APIs, implemented authentication workflows, and contributed to debugging, testing, and feature delivery in Agile environments.

PROJECTS

OnYourService — Service Marketplace Platform

React.js • Node.js • Express.js • MySQL • Socket.io • Firebase FCM • Tailwind CSS

- Developed a full-stack service marketplace platform with separate dashboards and authentication for Buyers, Providers, and Employees.
- Built secure REST APIs with JWT authentication, RBAC, OTP verification, bcrypt encryption, and MySQL database integration.
- Implemented Socket.io for real-time order updates, messaging, and live notifications across connected users.
- Integrated Firebase Cloud Messaging, Nodemailer, and SMS APIs for automated push notifications, email alerts, and OTP delivery.
- Optimized frontend performance using React lazy loading, Suspense, protected routing, and reusable component architecture.

Healthcare Platform — AI Healthcare & Wellness System

React.js • Vite • Node.js • Express.js • MySQL • Socket.io • Google Gemini • OpenAI • Tailwind CSS

- Developed a full-stack AI-powered healthcare platform enabling doctor consultations, hospital discovery, diet planning, disease information, and wellness management.
- Integrated Google Gemini and OpenAI APIs to analyze medical reports (PDF/Image) and provide AI-driven healthcare assistance through an intelligent chatbot.
- Built secure REST APIs with JWT authentication, OTP verification, bcrypt encryption, role-based access control, and MySQL database integration.
- Implemented real-time doctor-patient communication using Socket.io and engineered a location-based hospital finder using geospatial calculations.
- Optimized frontend performance using React, Vite, Tailwind CSS, Redux Persist, Zustand, lazy loading, and reusable component architecture.

Uptask — Enterprise Workforce Management Platform

Tech Stack: React.js • Node.js • Express.js • MySQL • Socket.io • Tailwind CSS • Firebase FCM • Zustand

- Architected a full-stack enterprise HR platform for employee lifecycle management, attendance, payroll, project tracking, and internal collaboration.
- Developed secure REST APIs using Node.js, Express.js, MySQL, JWT authentication, and role-based access control (RBAC) for Admin, HR, and Employee modules.
- Implemented real-time chat, notifications, and company feeds using Socket.io and Firebase Cloud Messaging (FCM), improving internal communication.
- Automated attendance tracking, biometric synchronization, payroll processing, break reminders, and auto punch-out workflows using Node-cron background jobs.
- Built modular HR modules for leave management, expense tracking, inventory allocation, grievance handling, task boards, and project management.
- Optimized frontend performance using React, Tailwind CSS, Zustand, interactive dashboards (Recharts/ApexCharts), and reusable component architecture.

ADDITIONAL INFORMATION

Certifications: CS50's Introduction to Computer Science, Foundations of Cybersecurity, Web Development, Search Engine Optimization (SEO).

Achievements: Qualified UGC-NET in Computer Science (Eligible for Ph.D. Admission).

Languages: English, Hindi, Punjabi.

Areas of Interest: Full Stack Development, Artificial Intelligence, REST API Development, Cloud Computing, System Design.
